Version : 8.0

# SAFETY DATA SHEET

#### YaraTera AMNITRA

# **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

#### 1.1 Product identifier

Product name : YaraTera AMNITRA

Product code : PA131P
Product type : Solid

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

#### **Identified uses**

Industrial distribution.

Industrial USE to formulate chemical product mixtures.

Professional formulation of fertiliser products.

Professional USE as fertiliser at Farm - loading and spreading.

Professional USE as fertiliser in Greenhouse. Professional USE as liquid fertiliser in open field.

Professional USE as fertiliser - maintenance of equipment.

Uses advised against	: Other non-specified industry
Reason	: Due to lack of related experience or data, the supplier
	cannot approve this use.

#### 1.3 Details of the supplier of the safety data sheet

Yara Hellas S.A.

<u>Address</u>

Street : Syngrou Avenue

Nea Smyrni

Number : 137
Postal code : 17121
City : Athens
Country : Greece

Telephone number : +30 210 9370355
Fax no. : +30 210 9370357
e-mail address of person : info.hellas@yara.com
responsible for this SDS

Date of issue : 20.02.2024 Page:1/24

#### 1.4 Emergency telephone number

National advisory body/Poison Center

Name : Κέντρο Δηλητηριάσεων Κύπρου/Poison Control Center

Cyprus

Telephone number : 1401 Hours of operation : 24/7

<u>Supplier</u>

Emergency telephone number

+30 2111 983 182 (7/24)

(with hours of operation)

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture.

Product definition : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Classification : Ox. Sol. 3, H272

Eye Irrit. 2, H319

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Hazard pictograms

Signal word : Warning

**Hazard statements**: H272 May intensify fire; oxidizer.

H319 Causes serious eye irritation.

**Precautionary statements** 

**Prevention**: P210 Keep away from heat, hot surfaces, sparks,

P280-a

open flames and other ignition sources. No

smoking.

P220 Keep away from clothing and other

combustible materials. Wear eye protection.

Response : P305 IF IN EYES:

P351 Rinse cautiously with water for several

minutes.

P338 Remove contact lenses, if present and easy

to do. Continue rinsing.

P337 If eye irritation persists: P313 Get medical attention.

P370 In case of fire:

P378-b Use flooding quantities of water to

Date of issue : 20.02.2024 Page:2/24

extinguish.

**EU Regulation (EC) No.** : Applicable, Table 65. **1907/2006 (REACH) Annex XVII** 

- Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

#### Special packaging requirements

Containers to be fitted with

: Not applicable.

child-resistant fastenings

Tactile warning of danger : Not applicable.

#### 2.3 Other hazards

Product meets the criteria for PBT or vPvB

: This mixture does not contain any substances that are assessed to be a

PBT or a vPvB.

according to

Regulation (EC) No. 1907/2006, Annex XIII

Other hazards which do not

result in classification Additional information None known.

Product forms slippery surface when combined with water.

### **SECTION 3: Composition/information on ingredients**

3.2 Mixtures : Mixture

Product/ingredie nt name	Identifiers	%	Classification	Specific Conc. Limits, M-factors and ATEs	Туре
ammonium nitrate	REACH #: 01-2119490981-27 EC: 229-347-8 CAS: 6484-52-2	>= 90 - 100	Ox. Sol. 3, H272 Eye Irrit. 2, H319	-	[1]
magnesium nitrate	REACH #: 01-2119491164-38 EC: 233-826-7 CAS: 10377-60-3	>= 2 - <= 2,5	Ox. Sol. 3, H272 Eye Irrit. 2, H319	-	[1]

See Section 16 for the full text of the H statements declared above.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

#### Type

[1] Substance classified with a physical, health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

Date of issue : 20.02.2024 Page:3/24

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

**Eye contact** : Rinse with plenty of running water. Check for and remove any

contact lenses. If irritation persists, get medical attention.

**Inhalation**: If inhaled, remove to fresh air. In case of inhalation of

decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance

for 48 hours.

**Skin contact**: Wash with soap and water. Get medical attention if irritation

develops.

Ingestion : Wash out mouth with water. If material has been swallowed and

the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by

medical personnel.

Protection of first-aiders : No action shall be taken involving any personal risk or without

suitable training.

#### 4.2 Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms

**Eye contact** : Adverse symptoms may include the following: pain or irritation,

watering, redness

Inhalation:No specific data.Skin contact:No specific data.Ingestion:No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician : Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept

under medical surveillance for 48 hours.

**Specific treatments** : No specific treatment.

### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

**Suitable extinguishing media** : Use flooding quantities of water for extinction.

Unsuitable extinguishing

media

Do NOT use chemical extinguisher or foam or attempt to

smother the fire with steam or sand.

#### 5.2 Special hazards arising from the substance or mixture

Hazards from the substance or :

mixture

: Oxidizing material. May intensify fire. The product itself is not combustible but it can support combustion, even in absence

of air. On heating it melts and further heating can cause

Date of issue : 20.02.2024 Page:4/24

decomposition, releasing toxic fumes containing nitrogen oxides and ammonia. The product has high resistance to detonation, but mixing with incompatible substances and/or heating under strong confinement can lead to explosive behaviour.

# Hazardous combustion products

Decomposition products may include the following materials: nitrogen oxides, metal oxide/oxides, ammonia, Avoid breathing dusts, vapors or fumes from burning materials., In case of inhalation of decomposition products in a fire, symptoms may be delayed.

#### 5.3 Advice for firefighters

Special protective actions for fire-fighters

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Special protective equipment for fire-fighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

# **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).

For emergency responders

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

#### **6.2 Environmental precautions**

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### 6.3 Methods and materials for containment and cleaning up

Small spill

Move containers from spill area. If spilled product is contaminated with incompatible material (see Section 10), carry out a risk assessment to identify appropriate methods and equipment specific to the situation and nature of the contaminants. Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in

Date of issue: 20.02.2024 Page: 5/24

a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

#### Large spill

Move containers from spill area. If spilled product is contaminated with incompatible material (see Section 10), carry out a risk assessment to identify appropriate methods and equipment specific to the situation and nature of the contaminants. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.

# 6.4 Reference to other sections

See Section 1 for emergency contact information.
 See Section 8 for information on appropriate personal protective equipment.
 See Section 13 for additional waste treatment information.

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Not for human or animal consumption.

#### **Protective measures**

: Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from clothing, incompatible materials and combustible materials. Keep away from heat. Empty containers retain product residue and can be hazardous. Do not reuse container.

# Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Keep away from: organic materials, oil and grease.

#### Seveso Directive - Reporting thresholds

Date of issue : 20.02.2024 Page:6/24

#### **Danger criteria**

Category	Notification and MAPP threshold	Safety report threshold
Ammonium nitrate	1.250 t	5.000 t

#### 7.3 Specific end use(s)

Recommendations : Not available.

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### **8.1 Control parameters**

Remark

#### Occupational exposure limits

•

Recommended monitoring procedures

: No exposure limit value known.

: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

Reference should be made to monitoring standards, such as the following:

European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy)

European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents)

European Standard EN 482 (Workplace atmospheres - General

requirements for the performance of procedures for the

measurement of chemical agents)

Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

Product/ingredie nt name	Туре	Exposure	Value	Population	Effects
ammonium nitrate	DNEL	Long term Dermal	5,12 mg/kg bw/day	Workers	Systemic
	DNEL	Long term Inhalation	36 mg/m <sup>3</sup>	Workers	Systemic

#### **PNECs**

Product/ingredient name	Туре	Compartment Detail	Value	Method Detail
ammonium nitrate	PNEC	Sewage Treatment Plant	18 mg/l	Assessment Factors

Date of issue : 20.02.2024 Page:7/24

magnesium nitrate	PNEC	Sewage Treatment	18 mg/l	Assessment	
		Plant		Factors	

#### **8.2** Exposure controls

#### Appropriate engineering controls

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### **Individual protection measures**

Hygiene measures

A washing facility or water for eye and skin cleaning purposes should be present. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Wash contaminated clothing before reusing.

#### Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

**Recommended**: Tightly-fitting goggles, Europe:, CEN: EN166.

#### Skin protection Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. For general applications, we recommend gloves with a thickness typically greater than 0.35 mm. It should be emphasized that glove thickness is not necessarily a good predictor of glove resistance to a specific chemical, as the permeation efficiency of the glove will be dependent on the exact composition of the glove material.

#### **Body protection**

Personal protective equipment for the body should be selected based on the task being performed and the risks involved.

#### Other skin protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### **Respiratory protection**

In case of inadequate ventilation wear respiratory protection.

#### **Environmental exposure** controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

# Personal protective equipment

(Pictograms)

Date of issue: 20.02.2024 Page:8/24

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

**Appearance** 

Physical state : Solid (prills)
Color : White.,

Odor : Odorless. slight, ammoniacal

Melting point/freezing point : 140 °C

Initial boiling point and boiling

range

Not applicable.

**Flammability** : Non-flammable.

Lower and upper explosion

limit

Lower: Not applicable. Upper: Not applicable.

Flash point : Not applicable.

Auto-ignition temperature : Not applicable.

Decomposition temperature : Not applicable.

**pH** : 4,6 - 7,6 [Conc. (% w/w): 100 g/l]

Viscosity : Kinematic: Not applicable.

Water solubility : 500 g/l

Partition coefficient: n-

octanol/water

: Not applicable.

Vapor pressure: Not applicable.Relative vapour density: Not applicable.

**Bulk density** : 900 - 1.000 kg/m3

**Explosive properties** : Non-explosive. **Oxidizing properties** : Oxidizer

UN Manual of Tests and Criteria, Section 39.

Particle characteristics

Median particle size : 2,2 mm

#### 9.2 Other information

No additional information.

### **SECTION 10: Stability and reactivity**

10.1 ReactivityNo specific test data related to reactivity available for this

product or its ingredients.

**10.2 Chemical stability** : The product is stable.

Date of issue : 20.02.2024 Page:9/24

# 10.3 Possibility of hazardous reactions

: Hazardous reactions or instability may occur under certain conditions of storage or use.

Conditions may include the following: contact with combustible materials Reactions may include the following: risk of causing or intensifying fire

#### **10.4 Conditions to avoid**

Avoid contamination by any source including metals, dust

and organic materials.

#### **10.5** Incompatible materials

Reactive or incompatible with the following materials: alkalis, combustible materials, reducing materials, organic

materials, Acids

10.6 Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### **Acute toxicity**

Product/ingredient	Method	Species	Result	Exposure
name				
ammonium nitrate				
	OECD 401	Rat	2.950 mg/kg	Not applicable.
	LD50 Oral			
	OECD 402	Rat	> 5.000 mg/kg	Not applicable.
	LD50 Dermal			
magnesium nitrate				
	OECD 423	Rat	> 5.000 mg/kg	Not applicable.
	LD50 Oral			
	OECD 402	Rat	> 5.000 mg/kg	Not applicable.
	LD50 Dermal			

Conclusion/Summary

: No known significant effects or critical hazards.

Mobility : Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Endocrine disrupting properties** : Not available.

**12.7 Other adverse effects** : No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

Date of issue: 20.02.2024 Page:13/24

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### **13.1** Waste treatment methods

#### **Product**

Methods of disposal

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

Hazardous waste : Yes.

#### European waste catalogue (EWC)

Waste code	Waste designation
06 10 02*	wastes containing hazardous substances

#### Packaging

Methods of disposal

: The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. Empty the bag by shaking to remove as much as possible of its contents. Empty bags may be disposed of as non-hazardous material or returned for recycling.

#### **Special precautions**

This material and its container must be disposed of in a safe way.

Care should be taken when handling emptied containers that have not been cleaned or rinsed out.

Empty containers or liners may retain some product

residues.

Avoid dispersal of spilled material and runoff and contact

with soil, waterways, drains and sewers.

#### Notice to reader

To the best of our knowledge, the information provided in this Safety Data Sheet is accurate as at the date of its issue. The information it contains is being given for safety guidance purposes and relates only to the specific material and uses described in it. This information does not necessarily apply to that material when combined with other material(s) or when used otherwise than as described herein, since all materials may represent unknown hazards and should be used with caution. Final determination of the suitability of any material is the sole responsibility of the user.

Date of issue: 20.02.2024 Page:17/24

# Annex to the extended Safety Data Sheet (eSDS) - Exposure Scenario/Safe Use Information:

#### Identification of the substance or mixture

Product definition : Mixture

Product name : YaraTera AMNITRA

Exposure Scenario/Safe Use Information

For each hazard resulting in classification relevant Exposure

Scenarios are attached.

Date of issue : 20.02.2024 Page:18/24

### Annex to the extended Safety Data Sheet (eSDS) -**Exposure Scenario:**

Section 1 - Title

scenario

**Short title of the exposure** : Yara - Ammonium nitrate - Distribution, Formulation

Identified use name Industrial distribution.

Industrial USE to formulate chemical product mixtures.

Substance supplied to that : As such, In a mixture

use in form of

List of use descriptors

**Process Category** : PROC02, PROC03, PROC05, PROC08a, PROC08b, PROC09,

PROC13, PROC15

**Environmental Release** 

Category

: ERC02

: No.

Market sector by type of

chemical product

Number of the ES

: PC01, PC11, PC12, PC35, PC37

Subsequent service life relevant for that use

: 02747-1/2013-12-16

Section 2 — Exposure controls

#### Contributing scenario controlling environmental exposure for: All

This product is not classified according to EU legislation., No exposure assessment presented for the environment.

Date of issue: 20.02.2024 Page:19/24 Contributing scenario controlling worker exposure for:

**Product characteristics** Inorganic salt.

Concentration of substance :

in mixture or article

<= 100 %

**Physical state** : Solid.

> Melt Liquid.

**Dust** : Solid, low dustiness

Frequency and duration of

use

: Unless otherwise stated. Use duration (h/d): > 4

Area of use: : Indoor

Ventilation control

measures

: No special ventilation requirements.

Conditions and measures related to personal protection and hygiene

**Personal protection** Causes serious eye irritation., Use suitable eye protection., Wash

hands and contaminated skin thoroughly after handling., See

Section 8 of the safety data sheet (personal protective

equipment).

#### Section 3 — Exposure estimation and reference to its source

**Exposure estimation and reference to its source - Workers:** 

Exposure assessment

(human):

: Qualitative approach used to conclude safe use.

**Exposure estimation and** 

reference to its source

: Not determined

Very low toxicity to humans or animals.

See Section 8 in SDS, DNEL.

Date of issue: 20.02.2024 Page:20/24

YaraTera AMNITRA

# Section 4 — Guidance to DU to evaluate whether he works inside the boundaries set by the ES

**Environment** : Not applicable.

**Health** : Not applicable.

#### Abbreviations and acronyms

**Process Category** 

: PROC02 - Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with

equivalent containment conditions

PROC03 - Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or

processes with equivalent containment condition PROC05 - Mixing or blending in batch processes

PROC08a - Transfer of substance or mixture (charging and

discharging) at non-dedicated facilities

PROC08b - Transfer of substance or mixture (charging and

discharging) at dedicated facilities

PROC09 - Transfer of substance or mixture into small containers

(dedicated filling line, including weighing)

PROC13 - Treatment of articles by dipping and pouring

PROC15 - Use as laboratory reagent

**Environmental Release** 

Category

: ERC02 - Formulation into mixture

Market sector by type of chemical product

: PC01 - Adhesives, sealants

PC11 - Explosives PC12 - Fertilizers

PC35 - Washing and cleaning products PC37 - Water treatment chemicals

# Annex to the extended Safety Data Sheet (eSDS) - Exposure Scenario:

Section 1 - Title

**Short title of the exposure** : Yara - Ammonium nitrate - Professional, Fertilizer.

Date of issue: 20.02.2024 Page:21/24

#### scenario

Identified use name

Professional formulation of fertiliser products.

Professional USE as fertiliser at Farm - loading and spreading.

Professional USE as fertiliser in Greenhouse. Professional USE as liquid fertiliser in open field.

Professional USE as fertiliser - maintenance of equipment.

Substance supplied to that : As such, In a mixture

use in form of

List of use descriptors

**Process Category** : PROC02, PROC03, PROC05, PROC08a, PROC08b, PROC09,

PROC11, PROC15, PROC19

**Environmental Release** 

Category

ERC08b, ERC08e

Market sector by type of

chemical product

: PC12

Sector of end use SU01, SU10, SU 0: Other: NACE G47.7.6

Subsequent service life

relevant for that use

No.

Number of the ES 02777-1/2013-12-17

#### Section 2 — Exposure controls

#### Contributing scenario controlling environmental exposure for: All

This product is not classified according to EU legislation., No exposure assessment presented for the environment.

Contributing scenario controlling worker exposure for:

Product characteristics : Inorganic salt.

Concentration of substance :

in mixture or article

<= 100 %

Date of issue: 20.02.2024 Page:22/24

YaraTera AMNITRA

**Physical state** Solid.

Melt Liquid.

Dust Solid, low dustiness

Frequency and duration of

use

Unless otherwise stated. Use duration (h/d): > 4

Area of use: Indoor, Outdoor

Ventilation control

measures

No special ventilation requirements.

Conditions and measures related to personal protection and hygiene

Personal protection Causes serious eye irritation., Use suitable eye protection., Wash

hands and contaminated skin thoroughly after handling., See

Section 8 of the safety data sheet (personal protective

equipment).

#### Section 3 — Exposure estimation and reference to its source

**Exposure estimation and reference to its source - Workers:** 

Exposure assessment

(human):

Qualitative approach used to conclude safe use.

**Exposure estimation and** 

reference to its source

: Not determined

Very low toxicity to humans or animals.

See Section 8 in SDS, DNEL.

#### Section 4 — Guidance to DU to evaluate whether he works inside the boundaries set by the ES

**Environment** Not applicable.

Date of issue: 20.02.2024 Page:23/24 **Health** : Not applicable.

#### **Abbreviations and acronyms**

**Process Category** 

PROC02 - Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions

PROC03 - Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or

processes with equivalent containment condition PROC05 - Mixing or blending in batch processes

PROC08a - Transfer of substance or mixture (charging and

discharging) at non-dedicated facilities

PROC08b - Transfer of substance or mixture (charging and

discharging) at dedicated facilities

PROC09 - Transfer of substance or mixture into small containers

(dedicated filling line, including weighing) PROC11 - Non industrial spraying PROC15 - Use as laboratory reagent

PROC19 - Manual activities involving hand contact

**Environmental Release** Category

ERC08b - Widespread use of reactive processing aid (no

inclusion into or onto article, indoor)

ERC08e - Widespread use of reactive processing aid (no

inclusion into or onto article, outdoor)

Market sector by type of chemical product

: PC12 - Fertilizers

Sector of end use

: SU01 - Agriculture, forestry, fishery

SU10 - Formulation [mixing] of preparations and/or re-packaging

(excluding alloys)

SU 0: Other: NACE G47.7.6 - Retail sale of flowers, plants, seeds, fertilisers, pet animals and pet food in specialized stores

Date of issue : 20.02.2024 Page:24/24
